The Performer sings the song for the band, and together with the lyricist, decides on the style of music they will use (i.e., rap, country, alternative, etc)

OBJECTIVE

The purpose of this activity is to apply the knowledge from your textbook, readings, videos, and class lectures regarding generalizations and ideas that characterize the 6 social classes in the United States today. You will apply the knowledge you have obtained by creating a band that is based on what one

particular social class finds important, how they behave, act, and believe.

You will chose a main role but work together as a group in order to create a great project!
